**Re: Your letter (QZ-016)**

Honourable Members of the European Parliament,

Thank you for your letter, which was passed on to me by Mr Roberto Gualtieri, Chairman of the Committee on Economic and Monetary Affairs, accompanied by a cover letter dated 17 February 2016.

The total seigniorage income earned by the ECB is disclosed in the ECB's Annual Report, which is presented to and discussed in the European Parliament every year. As requested, please find attached (Annex 1) the data for the last ten years (2006-15) regarding the annual amount of seigniorage income earned by the ECB, including information for each year on the retention of this income by the ECB and/or its distribution to the Eurosystem national central banks (NCBs).<sup>1</sup>

Annex 1 also provides the annual amount of net monetary income pooled by the Eurosystem NCBs, as well as the monetary income redistributed to the NCBs according to the Eurosystem key. Please note that, according to Article 32 of the Statute of the European System of Central Banks (ESCB) and of the ECB (hereinafter the Statute), monetary income is the income accruing to the NCBs in the performance of the ESCB's monetary policy function. At the end of each financial year the sum of the NCBs' monetary income is

<sup>1</sup> Please note that individual NCBs' monetary income data and their share in the ECB's seigniorage distribution are officially available through the published financial statements of the respective NCBs.

allocated to the NCBs in proportion to their paid-up shares in the capital of the ECB, subject to any decision taken by the Governing Council pursuant to Article 33.2 of the Statute.<sup>2</sup>

The ECB's Annual Reports also provide information on the NCBs' shares in the capital of the ECB. Pursuant to Article 29 of the Statute, the shares of the NCBs in the ECB's capital key are weighted according to the shares of the respective Member States in the total population and gross domestic product (GDP) of the European Union (EU), in equal measure, as notified to the ECB by the European Commission.

The weightings are adjusted every five years or whenever a country joins the EU. Annex 2 provides information on the evolution of NCBs' shares in the ECB's capital as well as the Eurosystem key for the abovementioned ten-year period.<sup>3</sup>

Over the period 2006-15 changes to the Eurosystem key occurred on the following dates.

- 1 May 2004 – change triggered by new countries joining the EU. Therefore, input data were updated (i.e. population, GDP and foreign exchange rates).
- 1 January 2007 – change triggered by Banka Slovenije joining the Eurosystem and new countries joining the EU. Due to the latter, input data were updated.
- 1 January 2008 – change triggered by the Central Bank of Cyprus and Central Bank of Malta joining the Eurosystem. There was no change of input data.
- 1 January 2009 – change triggered by Národná banka Slovenska joining the Eurosystem and quinquennial capital key adjustment. Due to the latter, new input data were delivered.
- 1 January 2011 – change triggered by Eesti Pank joining the Eurosystem. There was no change of input data.
- 1 July 2013 – change triggered by a new country joining the EU. Input data were updated.
- 1 January 2014 – change triggered by Latvijas Banka joining the Eurosystem and quinquennial capital key update. Due to the latter, new input data were delivered.
- 1 January 2015 – change triggered by Lietuvos bankas joining the Eurosystem. There was no change of input data.

The weights shown in Annex 2 are calculated using population and GDP (EUR equivalent) data. Annex 3 reports the source data and contains all the input data on population, GDP and foreign exchange rates used for such calculations.

<sup>3</sup> The Eurosystem key is calculated as the individual Eurosystem NCBs' shares in the ECB capital key, scaled up so their total adds up to 100 per cent.

Dear President Draghi,

*Dear Mario,*

In accordance with the provisions of Article 29.3 of the Statute of the European System of Central Banks, the weighting of the national central banks in the key for subscription of the ECB's capital is to be adjusted every five years. The next five-yearly adjustment of the ECB capital key will take place on 1 January 2014.

According to the provisions laid down in Council Decision 2003/517/EC of 15 July 2003, the statistical data to be used (gross domestic product, population and exchange rates) have to be provided by the Commission.

You will find herewith the necessary statistical data for all 28 EU Member States.

Yours sincerely,

**Mr Mario Draghi**  
**President of the European Central Bank**

\* For non-euro area members, ECU/euro exchange rates data are based on the regular daily concentration procedure between central banks within and outside the European System of Central Banks. The number of significant digits used may vary between the currencies, reflecting market conventions, but five significant digits are used in most cases.

\*\* For euro area members, the reported figures are conversion factors for euro fixed series into euro/ECU. They are calculated by dividing the ECU/euro exchange rates by the "fixed euro conversion rates" and are not equal to 1.0000 for Cyprus, Slovenia and Slovakia which had different exchange rates in the years before they joined the euro area.

OLLI REHN

VICE-PRESIDENT OF THE EUROPEAN COMMISSION

RUE DE LA LOI, 200  
B-1049 BRUSSELS  
TEL. (+32-2) 295.79.57

Brussels, 30 April 2013

Dear President Draghi,

As Croatia joins the European Union on 1 July 2013 its National Central Bank will become part of the ESCB and thus a subscriber to the capital of the ECB, in accordance with the provisions of Article 48.3 of the Statute of the ESCB and ECB. As a result, the ECB's capital key will need to be recalculated with effect from 1 July 2013.

According with the provisions laid down in Council Decision 2003/517/EC of 15 July 2003, the statistical data to be used (gross domestic product, population and exchange rates) has to be provided by the Commission.

You will find attached the necessary statistical data concerning Croatia, as well as updated data for other EU Member States, to be used for the adjustment of the subscription key to the ECB's capital.

Yours sincerely,

**Mr Mario Draghi**  
**President of the European Central Bank**

\* ECU/euro exchange rates correspond to the rates the ECB transmits to Eurostat and are the same than in 2008. To convert series into the previous national currencies for Estonia, Cyprus, Malta, Slovenia and Slovakia, which were provided in 2008, it has however to be taken into account that the GDP figures transmitted via the ESA are "euro fixed series". Therefore, the conversion factors for euro fixed series into euro/ECU for these countries are also added below.

Conversion factors for euro fixed series into euro/ECU - annual data (average)*

\* ECU/euro exchange rates correspond to the rates the ECB transmits to Eurostat and are the same than in 2008. To convert series into the previous national currencies for Estonia, Cyprus, Malta, Slovenia and Slovakia, which were provided in 2008, it has however to be taken into account that the GDP figures transmitted via the ESA are "euro fixed series". Therefore, the conversion factors for euro fixed series into euro/ECU for these countries are also added below.

Conversion factors for euro fixed series into euro/ECU - annual data (average)*					
Country	2001	2002	2003	2004	2005
Estonia	1.00000	1.00000	1.00000	1.00000	1.00000
Cyprus	0.98397	0.98296	0.99798	0.99415	0.98557
Malta	0.93874	0.95248	0.99255	0.99697	1.00140
Slovenia	0.90961	0.94299	0.97584	0.99769	0.99970
Slovakia	1.43730	1.41718	1.37718	1.32849	1.28125

\* Conversion factors for euro fixed series into euro/ECU are calculated by dividing the ECU/euro exchange rates by the "fixed euro conversion rates".
