

1. General Information		
CR raised by: T2S Project Team	Institute: ECB	Date raised: 24/09/08
Change Request title: Clarification that the life cycle type is a business concept		CR ref. no: T2S URD 0001 (T2S-URD V4-CLA-01)
Change Request Classification: Clarification <i>(Typo, Consistency, Clarification, Substance)</i>		Status: Approved by AG
Change Type: Modification <i>(New Requirement/Modification/Deletion)</i>		Requestor Category: T2S Project Team <i>(User, 3CBPlus, ECB T2S Project Team)</i>
Chapter Number/Annexe Number Chapter 5		Req No: (If applicable) T2S.05.010
Priority (S,H,M,L): L		Proposed implementation date/Release: Version 4.1
Description of requested change: The chapter 5 on Instruction life cycle management and matching of the User Requirement Document has to be amended to clarify that the life cycle type is a business concept in order to present the route that an instruction must follow.		
Reason for change and expected benefits/business case: This clarification has to be done in order to avoid any misunderstanding.		
Submitted annexes / related documents:		
Proposed wording for the Change Request: The explanatory text of the Section 5.2.2 of chapter 5 and the requirement T2S.05.010 have to be slightly amended. Section 5.2.2 - Life cycle types (page 9) The "life cycle type" <i>concept</i> refers to the processing characteristics of an instruction within T2S. <i>This chapter T2S</i> combines information included in the instruction and other attributes stored in the database to <i>present</i> determine the life cycle type. Such combined parameters include : T2S.05.010 - Decisional table (page 10) To <i>process an instruction</i> determine the life cycle type , T2S shall consider the information included in the instruction and other attributes.
